

## Pitot Kits

Our pitot kits represent an excellent cost savings over the individual items. **NEMFG** builds pitot kits from any combination of our pitot handles, blades, pressure gauges and adds a small sturdy carrying case. Gauge certification, if desired, is just \$15.00 at the time of purchase on those kits in which it is not already included.

**#701 Standard Pitot Kit:** This basic kit is the most popular. It includes our rugged #101 Hex Handle Quick Disconnect Pitot Tube matched with the #108 metal blade and the #202 liquid filled gauge (select from available psi range). The #901 small case is included. **\$139.00**

**#702 Pitot Kit:** Packaged with the #101 Hex Handle Quick Disconnect Pitot and two of the plastic blades (straight #109 & #110 notched). Our #202 liquid filled gauge (select from available psi range) and #901 small case make up this package. **\$125.00**

**#704 Custom Pitot Kit:** Featuring the #101B Hex Handle Quick Disconnect Pitot Tube, with the ultra-thin notched blade and the Ashcroft #204 Model 1009AW Flutterguard gauge (select from available psi range). This kit is packaged with the #901 small case. **\$180.00**

**#706 Ultra Inspector's Pitot Kit:** Included is the #107B Ultra-Light Quick Disconnect Pitot Tube with the #112 ultra-thin notched blade and the #204 Ashcroft Model 1009AW Flutterguard gauge (select from available psi range). Spare #111 ultra-thin straight blade, NIST traceable gauge certification with everything packaged into our #901 small case. **\$239.00**

**#707 Heavy Duty Professional Pitot Kit:** NEW! This kit contains our #101 Hex Quick Disconnect Pitot Tube with the #114 heavy duty blade and our durable #109 straight plastic blade. The kit also includes the 3 1/2" easy to read and accurate #205 Ashcroft Model 1009AW Flutterguard gauge (select from available psi range). NIST traceable gauge certification and the small #901 case complete the package. **\$265.00**
